CORE PROJECTS

AdsTrees | [GitHub](#) | [URL](#) | Dec 2023 – Feb 2024

- **Summary:** A web Application that empowers viewers to make a positive environmental impact. By voluntarily watching premium ads, users directly contribute to tree planting initiatives. Advertisers benefit from targeted exposure and brand association with sustainability. Key features include personalized user profiles, real-time tracking of tree planting progress, secure donation options through Stripe payment, and a unique opportunity to connect with eco-conscious audiences.
- **Role:** Front-end, Back-end, DevOps
- **Tools:** React, JavaScript, React Router, HTML, CSS, Chakra UI, MongoDB, MongoDB Atlas, Express.js, Node.js, Figma, Apollo GraphQL, JWT, bcrypt, dotenv, Vite, Vite Plugin PWA, Stripe Payments, Render, Moment.js, Image Kit, Cors, ESLint, Prettier, React Player, Framer Motion.

Travls | [GitHub](#) | [URL](#) | Sep 2023 – Oct 2023

- **Summary:** Travls is a web-based application designed to simplify travel itinerary management for frequent travelers. This application provides users with the ability to effortlessly create and manage their trip itineraries, ensuring efficient travel planning and organization. Travelers can create trips, add destinations and activities, access travel recommendations, engage with the travel community, track expenses, and more.
- **Role:** Back-end, DevOps
- **Tools:** HTML, CSS, JavaScript, jQuery, Node.js, MySQL, Sequelize, Chart.js, Express.js, Handlebars, Nodemon, ESLint, Insomnia, Heroku, bcrypt, dotenv, Amadeus.

Toronto Newcomers Guide | [GitHub](#) | [URL](#) | Aug 2023 – Aug 2023

- **Summary:** A Web Application crafted specifically for newcomers to the Greater Toronto Area (GTA). The guide aims to provide them with valuable information to ease their transition and adaptation to their new environment. This Application comes with an array of features like: User registration, Profile-based dashboard, Interactive map, Local News and more.
- **Role:** Front-end, DevOps
- **Tools:** HTML, CSS, JavaScript, jQuery, Materialize CSS, Day.js, Font awesome, Materialize CSS, APIs: Google Maps, Google Places, Google Translation, MediaStack.

EXPERIENCE

Automotive Service Adviser

Aug 2022 – Dec 2022

Canadian Tire

Toronto, Ontario

- Addressed an average of 30 customer inquiries daily, both in person and over the phone, ensuring prompt responses that enhanced overall customer satisfaction by swiftly resolving common vehicle related questions.

Automotive Service Manager / Final Audit Supervisor

Sep 2013 – Mar 2020

Iran Khodro Company

Shiraz, Iran

- Streamlined ordering processes by refining vendor interactions which directly contributed to reducing average times from suppliers by two days.
- Prepared over 500 detailed technical inspections throughout the production process, ensuring compliance with industry standards and enhancing product quality while reducing rework by 30% during final audits.
